# John Doherty's Caricatures Etcetera

Unlike other favors you might give out at an event, at Caricatures Etcetera, we like to say, "Art is Forever." Provide your guests or clients with a personalized portrait and consider the option of customizing the paper complete with your logo or event information and date. Our talented professional artists draw live at parties for adults and kids, conventions, corporate events, Bar / Bat Mitzvahs, showers, engagement parties, Sweet 16s, prom parties and more. **You name it, we've done it! Whether your party has 10 guests or you are planning a convention with 10,000 attendees, we can work with you to devise a plan to make your party pop!**

We work in a **black & white brush line style** featuring a head and shoulders image; a **full color style**, which can feature a cartoon body and hobby or sport, or our newest way to work: on an **iPad** with a flat screen TV and printer, for your guests to watch the art in process. This really entertains and awes the crowd. We have optional mattes and frames available, and each caricature includes a protective plastic bag.

We also work in-studio from photographs, drawing customized portraits, invitations, sign-in boards, and holiday cards. We can deliver the art in hard copy or electronically for you to print locally, making it easy to work with you wherever you are, from work or home.

There's caricature and there's caricature. Our work is not cookie-cutter. Each subject is considered as a unique face and each caricature is rendered with the utmost care.

There are many options available, if you can dream it, we can probably do it! Call or email today and together we can plan your portrait or party within your budget.
